TRAINING & PROJECTS

Online movie booking system
August 2024 – October 2024
- A full-stack website developed using the MERN stack (MongoDB, Express, React, Next.js) allows users to browse movies, select showtimes, and book tickets.
- Provides a panel for admin to add movies to the portal.

Second-hand Square
January 2024 – April 2024
- A full-stack website inspired from OLX developed using the MERN stack (MongoDB, Express, React, Node.js).
- offers users a platform to add, browse, and purchase second-hand products
- uses Redux for state management

Show-Time Library
June 2023 – July 2023
- Frontend web application developed using ReactJS.
- Uses TMDB API to display movie information, including ratings, genres and cast.
- Enhances user search experience using filters.

Portfolio Website
October 2023
- A website built with HTML, CSS, and JavaScript showcases my skills and projects.
- It provides a clean, responsive design, interactive elements, and smooth navigation for an engaging user experience.
